EDUCATION

SRM UNIVERSITY

Bachelor of Technology in Mechanical Engineering - 7.29
(2021-2024)

APOLLO POLYTECHNIC COLLEGE

Mechanical Engineering
(2019-2021) - 89%

SKILLS

- Attention to detail
- Communication
- Creativity
- Project management
- Team Work Collaboration
- Adaptability and Flexibility

CERTIFICATIONS

- SolidWorks Essential (CADD)
- Diploma in Product Design and Analysis
- Additive Manufacturing (NIT Trichy)

TECHNICAL SKILLS

- Auto CADD
- Creo
- Catia
- Ansys
- Solid Works

LANGUAGES

- Tamil
- English

SUMMARY

As a Mechanical Engineering student, I possess advanced design and modeling skills from completing SolidWorks Essentials and hold a diploma in product design and analysis. With a hands-on approach and meticulous attention to detail, I've honed practical engineering skills to solve real-world challenges. Eager to contribute to innovative projects, I am well-prepared to excel in the field of mechanical engineering.

WORKSHOP

Additive Manufacturing - 26 AUG 2023

- Acquired hands-on experience in Additive Manufacturing techniques.
- Gained insights into the latest advancements and applications in the field.
- Demonstrated commitment to continuous learning and skill development.
- Successfully applied theoretical knowledge to practical scenarios during the workshop.
- Received a certification acknowledging the completion of the workshop, affirming dedication to staying updated with emerging technologies in manufacturing.

PROJECT

- Investigation of battery Cooling System with Nanofluids- THERMAL ENGINEERING
- The Object of this project is to study the cooling performance of MWCNT nanofluids compare to the performace of ethylene glycol coolant.
